SUMMARY

Computer Science (AI & ML) undergraduate with an Executive PG in Cloud & DevOps from IIT Roorkee. Skilled in developing full-stack applications and REST APIs using Python, Java, and React. Hands-on experience in managing cloud deployments and integrating machine learning models into reliable, performant backend systems.

EDUCATION

Malla Reddy University

Bachelor of Technology (B.Tech) in Computer Science (AI & ML)

CGPA: 8.67 / 10

Hyderabad

Expected May 2027

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, HTML/CSS

Frameworks & Web: React, Node.js, Express.js, Flask, REST APIs

Cloud & DevOps: AWS, Azure, Docker, Git, GitHub, CI/CD

AI & Machine Learning: Model Integration, ML Fundamentals, Pandas, NumPy

PROJECTS

ERA Vault – Media Storage & AI Tagging Web App | *Next.js 15, TypeScript, ImgBB API, Neon Postgres, Docker*

- Built a full-stack web application using Next.js 15 and TypeScript, routing image uploads directly to the ImgBB API to prevent file memory buffering on the main application server.
- Integrated the Google Gemini Vision API to asynchronously generate image tags saved to Neon Postgres via Prisma ORM, and containerized the application using a multi-stage Dockerfile for reproducible deployment.

ERA Books – Book Recommendation & Library Web App | *React, TypeScript, TanStack Query, FastAPI, Cloudflare Pages*

- Built a web application using React and TypeScript, using TanStack Query to handle asynchronous data fetching, cache API responses in memory, and manage loading and error UI states.
- Built a Python FastAPI backend using collaborative and content-based filtering to generate book recommendations, hosting the API on Render and the frontend on Cloudflare Pages.

ERA Exchange – Currency Analytics & Exchange Rate Web App | *JavaScript, HTML/CSS, Chart.js, Service Workers, Cloudflare*

- Built a progressive web application using Vanilla JavaScript and CSS to display live exchange rates, incorporating Chart.js for 30-day historical trend graphs and a custom searchable dropdown for 150+ currencies.
- Added a Service Worker to enable offline access through response caching, created input debouncing to reduce API requests during user typing, and deployed the app on Cloudflare Pages.

EXPERIENCE

EduSkills Foundation – Software & Cloud Engineering Intern

Remote (Oct 2025 – Aug 2026)

- Applied object-oriented programming principles in Java and Python to build backend web logic, manage SQL database interactions, and integrate REST APIs.
- Evaluated cloud deployment workflows and applied Zero Trust security principles, configuring IAM policies and network perimeter controls.

CERTIFICATIONS & ACHIEVEMENTS

Executive PG Certification in Cloud Computing & DevOps

iHUB DivyaSampark, IIT Roorkee (2026)

Microsoft Certified: Azure Administrator Associate (AZ-104)

Microsoft (2026)

Zscaler Certified Zero Trust Associate

Zscaler (2026)

AWS Academy Graduate – Cloud Foundations

Amazon Web Services (2026)

Fundamentals of Cybersecurity (EDU-102)

Zscaler (2026)
